So long as love is a physiological emotion, so long must Platonic love sooner or later, be rudely shattered, and leave its victims fluttering in the dirt with broken wings. The determined efforts of Germany to make itself a naval, as well as a military, power, are shown in various directions. One of the chief occupations of the Admiralty at present is to improve the shipbuilding industry of the Empire. This they are accomplishing, not only by ordering ships of war built in private shipbuilding establishments but also by applying to German manufacturers for the machinery and other articles required for naval purposes. Among others, it is stated that this sudden increase in shipbuilding, coupled with the efforts of Germany to secure a naval station on the coast of Spain, indicate that in case of another war the Empire will not confine its operations to the land. Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the un-tive herbs found on the lower ranges of the Sierra Nevada mountains of Califor nia, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BIT-TERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of Vinegar Bitters in healing the sick of every disease man is heir to.
